We Make It Happen

## PRESS RELEASE

### DATACENTER GROWTH FUELS Cook Security Group to OPEN BOARDMAN-HERMISTON REGIONAL OFFICE

Fueled by growth in the Operations and Datacenter market, Cook Security Group will be hosting its grand opening of its North-Eastern Oregon regional office Wednesday, May 23<sup>rd</sup>. While Cook has been serving the North-Eastern Oregon region for over 15 years and houses four full time employees, a dedicated subcontractor crew and looking to add more “can do” technicians to our team, Cook has hit a tipping point and felt the need for a dedicated office. “We are excited to open our local office and wouldn’t be able to do so without the support of our strong local customer base. We are hoping many of them can join us at the Grand Opening Event and invite other businesses to come check us out”, states Craig Cook, VP of Operations. Cook’s growth stems from a significant increase in the need to provide security and service to operations centers and datacenters in the surrounding region. This compliments Cook’s long-term dedication to overall service and “we make it happen” philosophy.

#### GRAND OPENING:

- Wednesday, May 23<sup>rd</sup>, 2018
