

# Social Distance Reopen Design

Provide us your floorplan and our risk expert and CAD department will help with your reopen and readiness plan by designing your social distancing floor plan, complete with recommended maximum occupancy levels and one hour readiness checklist review. Our risk expert will provide one hour to help review a reopen readiness checklist. Complimentary solutions include video analytics, heat mapping with PIKO plugin, and social distancing reporting.

## Social Distance Plan includes

- Floorplan review
- CAD design to scale
- 6' spacing markers based on square footage
- On-site installation
- Optional quarterly maintenance plan
- 1-hour review of readiness checklist with risk expert

## Additional complementary solutions

- Video analytics monitoring & reporting options:
  - People Counting
  - Heat Mapping
  - Social Distance reporting
- Sneeze Guards
- Social Distancing Buttons
- Ultraviolet Sanitizing Cabinet
